

# Hillingdon Volunteer Police Cadets User Guide

Version 3 - Stage 3 of Road Map

3rd June 2021

# Introduction

We are once again delighted to welcome your club members back to Harlington Sports Centre. Our priority remains to be your safety and well-being. Whilst we are now entering Stage 3 of the Road Map, I can confirm all previous entry protocols (temperature checking / hand sanitising) is still in place. Alongside this, we would still required to ensure we carry on with the governments test and trace protocols.

Badminton England have recently updated their guidance on the Road Map in returning to play. This document has been established to ensure you (the hirer) and us (the facility) can meet the requirements of both NGB's guidance as well as our own user guides and risk assessments. This document is specific to your booking and is an addition to all our published Risk Assessment and User Guides.

Please note this is a live document and will be updated in line with government/NGB announcements are released.

If you have any questions please feel free to get in contact.
